

Mykela started dancing at age fourteen. She danced four years and then took a break to raise her family. Nineteen years later in 2006, she started dancing again. She dances all the way up through the C2 level. As a caller she is a neophyte, but she is learning quickly and gleaning knowledge from the good callers that surround her.

Mykela feels comfortable teaching square dancing as she is a natural teacher. If you need to workshop a few calls and you have at least a square call Mykela and she will do the workshop. If you want to do a fun dance Mykela is up for that as well.

Currently Mykela is teaching one square of dancers the advanced list. The lessons are going well and the dancers are enjoying the higher level. The dancers have completed the A1 list and are now learning A2. The dancers also had several plus workshops along the way.
